TP25 - S25 EDGE

Base edge tuning machine for ski

The TP25 is a new compact machine very simply to use.

With this machine you have an excellent tuning on ski made by ceramic stones. Also you can choose the degrees of tuning - 0.5°, 0.7° and 1° - with a simple operation that means replace the diamond dresser.

Optional: ceramic side edge unit GAF19CD

GAF19CD

Side edge ceramic disc sharpening unit "inline" for S25 EDGE
